

On 17-19 September 2019 the Exhibition Center “ACCO International” (40-B Peremohy Ave., in the Pushkin Park, Shuliavska Metro Station) will host the X International Exhibition of Equipment and Technologies for the Pharmaceutical Industry PHARMATechExpo.

It is the only exhibition in Ukraine that presents the whole process of pharmaceutical production – from the development of substances and quality control of raw material, equipment for production of pharmaceutical products and packaging technologies to transportation, storage of medical products and recruitment.

Why is it unique? It is the only venue in Ukraine where one can see how a medicinal product “is born” and what equipment is used for the entire manufacturing process: how a drug substance is produced and how the quality of raw materials, manufacture and packaging are controlled, and how products are transported and stored.

The Organizers of the Exhibition and Congress: LMT Company, the Shupyk National Medical Academy of Postgraduate Education, Expoforum.

Co-organizer – MPE (Medical professional events)

The event will be held **with the support** of the Ministry of Healthcare of Ukraine, the State Service of Ukraine on Medicines and Drugs Control, the State Expert Center of the Ministry of Healthcare of Ukraine, the Ukrainian Scientific Pharmacopoeial Center for Quality of Medicines, the National Academy of Medical Sciences of Ukraine and the Ukrainian Pharmaceutical Quality Institute.

Official partner– Mikhail Kurako Company.

NEW! Official Edition of the Exhibition – PHARMATECHEXPO JOURNAL

Cutting-edge equipment and advanced technologies at one site

PHARMATechExpo-2019 brings together all leading players of the pharmaceutical market. It is a great opportunity to have a look at international and national achievements. Only here you can see the most well-known brands of equipment and up-to-date technologies. More than 60 exhibitors from Switzerland, Lithuania, Czech Republic, Germany, Slovenia, USA, China, Bulgaria, Ukraine and other countries will present at their stands the manufacturing and nonproduction equipment, packaging equipment, integrated solutions for pharmaceutical companies, laboratory and analytical equipment, technologies of "clean rooms", raw materials and ingredients, technologies and equipment for water supply, water treatment for companies in the pharmaceutical industry, industrial refrigerating and cooling equipment, services for pharmaceutical companies and staff training.

The following famous companies will take part in the exhibition: ANTARES VISION, ECI Packaging Ltd (USA), EDA Medical&Pharmaceutical Technology Co. LTD, Eljunga, Hicof Inc, IMCoPharma, Inherent Simplicity Baltic, Metronik d.o.o., nSoft, ROMMELAG ENGINEERING, SKS, WIPOTEC-OCS GmbH, Biola, Block CRS a.c, Butler&Partner, Llc., Henrich, Eurojet, Leocon Group, Karbion, KFT, KIT MED, MKT-COMMUNICATION, Mikhail Kurako Company, MK Engineering, Novafilter Technology, OMAG S.r.l., SVS-ARTA, SP KBT, STS, Technoprolab, UOSLAB, Favicon, FARMASH, Validation Center, Steiner Ukraine, ZETA GmbH, FAVEA ENGINEERING, FARMIPROM, HimMiks, Chemlaborreactiv and many others.

The National Pavilion of India will be presented for the first time in Ukraine with the support of the Government of India Ministry of Trade and Industry. Co-organizer of the India Pavilion is the Federation of Indian Chambers of Commerce & Industry (FICCI) and exclusive international partner is EXHIBITIONS & TRADE SERVICES INDIA PVT LTD (ETSIPL).

Collective exposition will be presented more than 40 Indian companies - manufacturers of equipment for pharmaceutical production, raw materials, packaging equipment, air-conditioning, cooling, ventilation; intellectual systems for monitoring and automation of industrial robotics, water treatment systems, air driers,

outdoor air supply systems, energy recovery systems; vacuum transport systems and companies that offer integrated solutions for pharmaceutical businesses.

We give you both – impressions and knowledge

This is the first time when the **INTERNATIONAL PHARMACEUTICAL CONGRESS** will take place. It is a unique platform to join theory and practice of manufacturing processes. This is a modern format to arrange meetings and events that unite leading pharmaceutical producers and companies, providing equipment and raw materials to manufacture medicines, cosmetics, nutritional supplements as well as packing and monitoring equipment and quality control equipment.

Visitors will have an opportunity to obtain knowledge and new experience at science-to-practice conferences, seminars, trainings, master classes, using new equipment.

Traditionally, the Ukrainian Scientific Pharmacopoeial Center for Quality of Medicines will hold a scientific-practical conference “**Important Issues of Pharmacopoeial Control of the Quality of Medicinal Products**” for specialists of control and analytical laboratories in quality control and experts of pharmaceutical enterprises and regulatory and supervisory bodies in the pharmaceutical industry.

The producers of active pharmaceutical ingredients, heads of pharmaceutical production plants, heads and specialists of pharmaceutical quality control departments will have an opportunity to participate in the practical seminar “**Practical Aspects of Audit of Pharmaceutical Enterprises**” organized by UKRMEDCERT.

The State Expert Center of the Ministry of Healthcare of Ukraine will wait for quality control specialists, heads and leading specialists of management and quality control departments, heads of departments and specialists in pharmaceutical supervision at the discussion “**Place and role of pharmacovigilance in the company**”.

WIPOTEC-OCS GmbH will address the pressing issues at the seminar “**The Track&Trace System in Ukraine**” and LeoCon Group will focus on the most important matters at the seminar “**The Ventilation of Industrial Spaces**”. CHEMLABORREACTIV will hold a range of master classes with the use of operational equipment, where the specialists will be presented with new instruments, solutions and methods and will have an opportunity to put some questions.

The conference “**The Practical Aspects of Approach to New Standard DSTU ISO 17025:2017 in testing laboratories of the pharmaceutical industry**” organized by the International School of Technical Legislation and Quality Control will bring together production directors, heads and employees of quality control laboratory and testing laboratories in the pharmaceutical industry.

We invite owners and heads of pharmaceutical companies, heads of departments for production, quality and operational improvements, specialists and everyone who intends to know something new to attend the seminar “**The Technologies Lean (Kaizen, Lean Production) in the organization of pharmaceutical production. How to Get more for less?**” organized by IMBS.

The useful and informative events will be held by the Ukrainian Agency for Health Technology Assessment, Standards Technology Development LLC, Public Health Department and Pharmaceutical Department at the Shupyk National Medical Academy of Postgraduate Education, Teksa, FAVEA ENGINEERING, State Enterprise «Ukrainian Pharmaceutical Quality Institute», Ukrainian Scientific Institute of Certification.

The Congress is included into the List of Meetings, Congresses, Symposiums and Research-to-Practice conferences that will take place in 2019 approved by the National Academy of Medical Sciences of Ukraine and the Ministry of Health of Ukraine. The participants of research and practical events of the Congress will be granted with Certificates of Skills Development.
